To complement the current efforts of the government in prioritizing the SDGs that are lagging-behind in the country, the WGs are encouraged to focus on the following SDGs where the Philippines is lagging-behind based on PSA's Pace of Progress report (Current Status Index as of January 2023)

*Based on the Philippine Statistics Authority's (PSA) Pace of Progress Report, **only 16.7 percent of the SDG targets are on track** while the remaining targets require exponential acceleration of progress or reversal of negative trends to achieve the 2030 targets.*
